If you are measuring for proper u-joint size of your existing pinion yoke or measuring to purchase a new pinion yoke.

#1 How wide is the saddle that the u-joint cap fits into?

You will get ONE of these three choices $1\text{-}1/16$, $1\text{-}1/8$, $1\text{-}3/16$

#2 What is the measurement Between the 2 locating tabs?

$3\text{-}7/32$ or $3\text{-}5/8$
